Discover the world with Auto-Sleepers

Auto-Sleepers has over 54 years experience in meeting the needs of customers who are looking for the best in British built motorhomes. Based at Willersey in the Cotswolds, we still take great pride in our hand craftsmanship and design expertise. Great time, care and effort go into the making of an Auto-Sleepers motorhome and it shows. The furniture, fittings and fitments are all of the highest quality, modern and stylish coupled with quality and innovation, all hand built to offer many years of pleasure. And because our designers use and live with our motorhomes, they know from experience what works and how to make the best use of every cubic centimetre of interior space. That's why so many of our customers keep coming back to us.

Power With Economy

The class leading Auto-Sleepers Motorhome range have a high specification befitting their flagship status and are built on the latest Euro 6 compliant range of Diesel engines, combining power with performance yet being environmentally friendly with low emissions.

Made in the UK

Safety First And Foremost

Being safe in your vehicle is paramount. All Auto-Sleepers models have obtained EC Whole Vehicle Type Approval. That is why the forward facing seating in Auto-Sleepers' conversions is tested to European seat belt anchorage standards. All models comply with British and European safety standards as independently verified by the National Caravan Council (NCC) and VCA.

Award-Winning Manufacturer

Auto-Sleepers have been building motorhomes of exceptional quality for over fifty years. Our motorhomes are hand built by experienced craftsmen combining practicality with internal and external design innovations. Never before have these qualities been better combined than in the latest Auto-Sleepers range. For those who aspire – arrive in style with an Auto-Sleeper.

Peerless & Refined

Peugeot Van Conversions

Our Panel Van Conversions are versatile vehicles, perfect for both everyday trips or longer holidays away. Their practical size will give you confidence when negotiating narrow country lanes, and finding a parking space at the supermarket. Inside, you'll find the luxury and quality you'd expect of an Auto-Sleeper motorhome.

King of the Road

Kingham

Offering majestic luxury; The Kington raises the bar to new heights. The Kington features a rear fixed double bed, an indulgence normally reserved for coachbuilt motorhomes. For optimum sleeping comfort the bed can slide back to lift the rear section, providing additional backrest support. At the front, a fully featured kitchen and swivelling cab combine to create a practical living area. For those looking for coachbuilt luxury in a compact van conversion the Kington is simply a must have.

The Specs >

Cutting Edge Engines

Auto-Sleepers 2018 Peugeot range motorhomes are fitted with Peugeot's BlueHDi 2.0L engines. BlueHDi is the name given to Peugeot's latest generation of fuel and environmentally efficient Diesel engines.

Generated from a world-famous diesel heritage and innovative, automotive engineering excellence, BlueHDi complies with Euro 6 emission standards to deliver a driving experience rich in power and performance but with exceptional fuel economy and CO2 emissions.

BlueHDi engines meet Euro 6 standards thanks to Selective Catalytic Reduction (SCR) and Particle Filtration processes. A three stage cleansing process specifically targets the pollutants of diesel combustion, removing hydrocarbons and carbon monoxide, reducing nitrogen oxides by up to 90% and eliminating 99.9% of particulates:

- **Stage One** - the oxidation catalytic converter eliminates the HC and the CO2, transforming them into water (H2O) and carbon dioxide (CO2)
- **Stage Two** - the SCR (Selective Catalytic Reduction) transforms the nitrogen oxides (NOx) into water and nitrogen (N2), which is the main constituent of air (78%), due to the addition of AdBlue® (mixture of urea and water)
- **Stage Three** - the Particulate Emission Filter eliminates 99.9% of the particulates by number

BlueHDi delivers the cleanest diesel engine possible and exceptional fuel economy specification and refinement.

AL-KO Air-Top Suspension

The AL-KO Air-Top system is fitted as a proven performance enhancing upgrade to Peugeot's own twin leaf rear axle suspension.

The system increases roll and road holding stability and provides significantly improved driving comfort even under full load.

The dual circuit system is entirely maintenance free and can be used independently on each rear wheel to assist levelling out uneven loading whilst travelling and/or onsite when parking on uneven ground.

AL-KO

Peace Of Mind On The Road

The standard safety features of the Auto-Sleepers 2018 Peugeot range include: ESP - electronic stability program, ABS - Anti-lock Braking System with EBA - Emergency Braking Assistance, EBFD - Electronic Brake Force Distribution, disc brakes, passenger and driver's airbags, fuel supply safety cut off, driver's seat belt indicator and safety auto-reverse windows.

Underfloor Mounted LPG Tank

All 2018 Auto-Sleeper Peugeot Van Conversions have a 25 litre underfloor mounted LPG gas tank installed, offering hassle free practicality with numerous benefits including -

- Readily available from 1000's of petrol stations throughout Great Britain and Europe.
- Convenience personified, refilling them is as easy as filling the fuel tank
- No heavy bottles to lift, carry or manhandle
- No middle of the night change overs required
- Economical to use at approximately half the cost of cylinders, cost per litre typically only 60p
- Interior space saving, the tank is externally mounted to the underside of the Motorhome
- Easy read LED tank gauge and an Auto-Stop feature to prevent any chance of overfilling
- Reliable and safety proven, extensively tested for peace of mind and fully approved under European Whole Vehicle Type Approval Legislation.

Athermic Windows

Auto-Sleepers' Peugeot van conversions feature factory bonded athermic windows. These windows provide a stylish and practical solution that reflects heat in both directions, provides insulation for year round use, offers improved security and are tinted for maximum privacy.

Base Vehicle Specification

- Peugeot Twin Leaf rear suspension and AL-KO dual Air-Top suspension system installed*

Cutting Edge Engines

Auto-Sleepers 2018 Peugeot range motorhomes are fitted with Peugeot's BlueHDi 2.0L engines. BlueHDi is the name given to Peugeot's latest generation of fuel and environmentally efficient Diesel engines.

Generated from a world-famous diesel heritage and innovative, automotive engineering excellence, BlueHDi complies with Euro 6 emission standards to deliver a driving experience rich in power and performance but with exceptional fuel economy and CO2 emissions.

BlueHDi engines meet Euro 6 standards thanks to Selective Catalytic Reduction (SCR) and Particle Filtration processes. A three stage cleansing process specifically targets the pollutants of diesel combustion, removing hydrocarbons and carbon monoxide, reducing nitrogen oxides by up to 90% and eliminating 99.9% of particulates:

- **Stage One** - the oxidation catalytic converter eliminates the HC and the CO2, transforming them into water (H2O) and carbon dioxide (CO2)
- **Stage Two** - the SCR (Selective Catalytic Reduction) transforms the nitrogen oxides (NOx) into water and nitrogen (N2), which is the main constituent of air (78%), due to the addition of AdBlue® (mixture of urea and water)
- **Stage Three** - the Particulate Emission Filter eliminates 99.9% of the particulates by number

BlueHDi delivers the cleanest diesel engine possible and exceptional fuel economy specification and refinement.

Peace Of Mind On The Road

The standard safety features of the Auto-Sleepers 2018 Peugeot range include:

ESP - electronic stability program, ABS - Anti-lock Braking System with EBA - Emergency Braking Assistance, EBF - Electronic Brake Force Distribution, disc brakes, passenger and driver's airbags, fuel supply safety cut off, driver's seat belt indicator and safety auto-reverse windows.

Underfloor Mounted LPG Tank

All 2018 Auto-Sleeper Peugeot Coachbuilts have a 25 litre underfloor mounted LPG gas tank installed, offering hassle free practicality with numerous benefits including -

- Readily available from 1000's of petrol stations throughout Great Britain and Europe.
- Convenience personified, refilling them is as easy as filling the fuel tank
- No heavy bottles to lift, carry or manhandle
- No middle of the night change overs required
- Economical to use at approximately half the cost of cylinders, cost per litre typically only 60p
- Interior space saving, the tank is externally mounted to the underside of the Motorhome
- Easy read LED tank gauge and an Auto-Stop feature to prevent any chance of overfilling
- Reliable and safety proven, extensively tested for peace of mind and fully approved under European Whole Vehicle Type Approval Legislation.

BlueHDi delivers the cleanest diesel engine possible and exceptional fuel economy specification and refinement.

Peace Of Mind On The Road

The standard safety features of the Auto-Sleepers 2018 Peugeot range include:

ESP - electronic stability program, ABS - Anti-lock Braking System with EBA - Emergency Braking Assistance, EBFD - Electronic Brake Force Distribution, disc brakes, passenger and driver's airbags, fuel supply safety cut off, driver's seat belt indicator and safety auto-reverse windows.

AL-KO Foundations

Since 1979, AL-KO has been at the forefront of motorhome chassis conversions. AL-KO has worked to engineer a lightweight, low height chassis perfectly suited for motorhome use.

AMC chassis are specially engineered to provide the maximum strength and stability within the lightest possible frame.

This enables motorhome owners to take additional luggage, but also provides the opportunity to carry heavier and larger leisure equipment.

What's Inside?

- A. Full Mercedes-Benz electrics package: ESP with Active Skid Control & ABS with EBD
- B. Fully automatic 7-speed gearbox*
- C. Cab air conditioning & cruise control*
- D. **Truma iNet Control Box**
- E. **Trackstar Leisure CAT6 Vehicle Tracker with 1 year free subscription**
- F. Luxury Valencia or Amarti furniture
- G. Wind-up opening skyview window & panoramic roof-light**
- H. 80W solar panel*
- I. Designer Catalan, 'Casa Milà' & 'Sagrada' fabric options
- J. Thule (Omniistor) canopy awning (up to 5m)*
- K. **Full scratch and impact resistant GRP body with platinum sides including GRP Rear Panel with Hella LED Lights**
- L. **Truma Aventa Comfort air-conditioning**
- M. Full spectrum reversing camera*
- N. External BBQ & 230v mains socket
- O. Rear corner steadies
- P. Spacious en-suite washroom facilities
- Q. Spare wheel and carrier with a remote tyre pressure valve#
- R. Rear mud-flaps
- S. Hartal entrance door c/w sliding door flyscreen
- T. Large skirt storage locker, underfloor mounted for space saving
- U. 25 litre under-floor mounted LPG gas tank
- V. Fully featured kitchens
- W. Drive safe regulator
- X. Crockery set & crystal glasses
- Y. Alloy wheels*
- Z. Colour coded bumpers

Key Features

163bhp Mercedes Euro Engine

Drive with confidence, the 2018 Mercedes coachbuilt range features powerful 163bhp engines as standard.

Fully automatic 7-speed gearbox*

Mercedes coachbuilt models can be fitted with Mercedes' latest 7-speed automatic gearbox as part of the premium pack upgrade.

More comfort on the move

Truma Aventa Comfort

Enjoy a pleasant indoor climate thanks to the Truma Aventa Comfort roof-mounted air conditioning system.

Grade 3 Fully Insulated

All our Mercedes coachbuilts feature Grade III Classification for heating and thermal insulation.

80W Solar Panel

Be more self-sufficient and save money on your next holiday thanks to the included Solar Panel.

Underfloor Mounted LPG Tank

25 litre underfloor mounted LPG gas tank installed, offering hassle free practicality with numerous benefits

Powerful & Compact

Stanton

The Stanton is our most compact model built on the Mercedes rear wheel drive chassis and belies the space available inside along with the flagship specification levels including an optional fully automatic gearbox. The Stanton truly is the king of all Compact Motorhomes, offering everything that one could possibly want or need whilst the Mercedes offers unprecedented driving comfort and is full of innovative features that are sure to make even the longest journey a breeze.

The Specs >

The Best Sprinter Of All Time.

Outstanding Operational Reliability

The Auto-Sleepers Mercedes range is built on the latest generation Sprinter Chassis which lives up to the model's impressive reputation for outstanding operational reliability. The result of Mercedes continuous development process of ensures that the new Sprinter is even more advanced, even more flexible, even safer and even more economical.

Superb Technology

High quality standards and solid resale values all contribute to the overall cost-effectiveness of the Sprinter, as do its state-of-the-art engines

Your Safety Is Our Highest Priority.

The Mercedes Sprinter Chassis is the ultimate driver's chassis being supplied as standard with a vast array of electronic driving aids, all of which work in the background to make the journey as effortless and pleasurable as the destination.

Peace Of Mind On The Road

Innovative gas pressure regulator for safe single-cylinder operation. Installed as standard. See Page 75 for more details.

Underfloor Mounted LPG Tank

All 2018 Auto-Sleeper Mercedes Coachbuilts have a 25 litre underfloor mounted LPG gas tank installed, offering hassle free practicality with numerous benefits including -

- Readily available from 1000's of petrol stations throughout Great Britain and Europe.
- Convenience personified, refilling them is as easy as filling the fuel tank
- No heavy bottles to lift, carry or manhandle
- No middle of the night change overs required
- Economical to use at approximately half the cost of cylinders, cost per litre typically only 60p
- Interior space saving, the tank is externally mounted to the underside of the Motorhome
- Easy read LED tank gauge and an Auto-Stop feature to prevent any chance of overfilling
- Reliable and safety proven, extensively tested for peace of mind and fully approved under European Whole Vehicle Type Approval Legislation.

Safety Features As Standard

Electronic Stability Programme (ESP®)

The Mercedes-Benz ADAPTIVE ESP® is designed to assist the driver in maintaining control of the vehicle and intervene automatically when the vehicle detects a potential issue.

The load in a van is always altering, ADAPTIVE ESP® adapts to the load continually, moving with the centre of gravity as loads vary and adjusts to the specific load that is being carried. This system automatically detects when the vehicle is understeering or oversteering and intervenes to assist the driver to maintain control.

Acceleration skid control (ASR)

ASR ensures smooth start-off and acceleration, without wheel spin. As soon as one of the drive wheels starts to spin, ASR intervenes to reduce the engine power, and also by gently applying the brake to that wheel, to prevent a loss of traction. The result is improved traction - and safety - especially on slippery surfaces

Start-off Assist

Start-off Assist is fitted as standard to manual transmission models and means you don't have to juggle brake, clutch and handbrake when moving off on uphill or downhill slopes. Once the brake pedal has been released, the brake pressure is maintained for approximately two seconds, allowing you to move off without the vehicle rolling backwards.

Brake Assist (BAS)

Road and accident research has established even in an emergency, most drivers don't use the full power of the vehicle's brakes. This discovery led Mercedes-Benz to develop the Brake Assist system. By reacting to the speed at which the brake pedal is applied, Brake Assist can detect a situation where emergency braking is required. When that happens the system automatically increases braking power, aided by the anti-lock braking system (ABS) which prevents the wheels from locking up.

Electronic Brake force Distribution (EBD)

Electronic brake force distribution (EBD) divides up the braking force between the front and rear wheels of the motorhome as required, optimising braking efficiency in all driving situations. In this way the system prevents "overbraking" of the rear wheels, which could cause the vehicle to fishtail. EBD also puts less stress on the front brakes, which reduces the risk of fading due to overheating.

Anti-lock braking system (ABS)

The anti-lock braking system that comes as standard with the Mercedes Sprinter chassis features the latest in advanced technology. When the speed sensors detect that a wheel is on the point of locking up, the brake pressure at the wheel is immediately reduced, keeping the motorhome steerable even during emergency braking.

Base Vehicle Specification Exterior General

- Turbo diesel 163bhp engine
- Optional upgrade to V6 190bhp engine#
- Optional 7-speed fully automatic gearbox*
- **Trackstar Leisure Vehicle Tracker**
- Alloy wheels* plus spare wheel & carrier (except Stanton)

- Roof vent with flyscreen

Your Motorhome. Your Way.

Auto-Sleepers have been hand-crafting motorhomes to stand the test of time for over 54 years and we believe that your motorhome should be tailored to be exactly how you want it. That's why we offer numerous personalisation options to enable you to customise your vehicle to meet your requirements.

Roof Options

Peugeot and Mercedes-Benz coachbuilt models are available with a choice of two roof options, available at no extra cost.

Low Profile

The lowline roof is available with either a large opening skyview rooflight or additional locker storage.

Luton

The overcab luton offers additional sleeping accommodation for two people. Not available on Corinium range.

Seating Options

Selected Coachbuilt models are available with the option of two rear seating configurations. Choose from either twin benches, creating a spacious lounge or additional rear travelling seats**, which allow for extra passengers to be transported in the rear safely.

Twin Bench Lounge

Additional Rear Travelling Seats

Fabric Options

Every Auto-Sleeper comes with a choice of colourways from the latest range of handpicked Belgian 'Catalan', 'Casa Milà' or 'Sagrada' fabrics, providing a luxurious finish for that added personal touch.

Seat Belt Safety

Seat belts for the front cab seats in motorhomes have always been installed by the base vehicle manufacturer since the law required them to do so and wearing them is a legal requirement whenever the vehicle is being driven.

Seat belts in the rear of a motorhomes however is more complicated; where a designated travelling seat is available it must be used, however, where there isn't one it's not illegal to travel in the rear without wearing one at present, although this could well change in the future.

In the interests of everyone's safety and peace of mind, Auto-Sleepers always recommend when travelling in the rear of a motorhome, it should be in a designated travelling seat with the three point seat-belts in use.

Look out for the red seat-belt symbol next to the layout to indicate the availability of designated rear travel seats which have been tested and approved as fully compliant with European whole vehicle type approval for your total safety and peace of mind.

Situation	Front Seat	Rear Seat	Responsibility
Driver	Seat belt must be worn if fitted	-	Driver
Child under 3 years of age	Seat belt must be worn if fitted	Correct child restraint must be used	Driver
Child from 3rd birthday up to 135cm in height or 12th birthday, whichever they reach first.	Correct child restraint must be used	Correct child restraint must be used where seatbelts are fitted. Must use adult belt in rear seat if correct child restraint is not available.	Driver
Child 12 or 13 years of age or over 135cm in height	Seat belt must be worn if fitted	Seat belt must be worn if fitted	Driver
Adult passengers	Seat belt must be worn if fitted	Seat belt must be worn if fitted	Passenger

Grade 3 Insulation >

All Year Round Comfort

All models in the 2018 Auto-Sleepers motorhome range meet the NCC EN1646-1 Grade III classification for heating and thermal insulation, meaning every 2017 model excels in any environment to deliver luxurious year round touring comfort.

The classification was achieved after completing rigorous testing inside Truma's state of the art Cold Chamber facility in Derby, where the vehicles were subjected to extreme temperatures of -15°C which is extremely challenging for an all steel body to overcome as it absorbs the cold and fights the heating system.

In order to achieve Grade III status, the centre of the interior must achieve a minimum temperature of +20°C within a 4 hour period despite the freezing temperatures surrounding the vehicle throughout the test. Auto-Sleepers new tank heater blankets, which form part of the new winter pack, allow for free flowing water meaning Auto-Sleeper will excel in any environment for true Motorhoming freedom.

AdBlue®

Advanced Emissions Control For Diesel Engines

Auto-Sleepers 2018 motorhome range engines will feature Selective Catalytic Reduction (SCR) using AdBlue®*, a water/urea based additive which is stored in a tank (like diesel fuel), however, unlike fuel it is not injected into the engine, but directly into a specially modified part of the vehicle's exhaust. This begins a chemical reaction which removes the polluting oxides of nitrogen (NOx), converting them into harmless oxygen and nitrogen in a process known as Selective Catalytic Reduction, or SCR for short. SCR is only applicable to diesel engines and the more economically you drive, typically, the less AdBlue® you will use.

Easy AdBlue® Filling

Access from the outside to the AdBlue refill located under the fuel filler.

How will I know if the system needs topping-up?

A series of warnings will be given via the driver information system, accompanied by advice/messages. The first message is displayed when the remaining range is approximately 1,500 miles, and is repeated every 62 miles until the range reaches 1,000 miles, at which point the warning turns amber. This warning is repeated every 31 miles and is accompanied by an audible tone. If these warnings are not acted upon, the warning turns red; once this happens the motorhome will not restart once the ignition is turned off. This is not a fault, but a required feature of the system. If this stage is reached the system will need a full top-up before the motorhome can be restarted. Further information is available in the vehicle handbook.

Important Information

- AdBlue® is not a fuel additive. This is why there is a separate AdBlue® tank
- If you put AdBlue® in your fuel tank by mistake, please do not start the engine, but contact a retailer for help
- Put only AdBlue® in the AdBlue® tank; do not fill the AdBlue® tank with any other liquids
- Prevent anything from contaminating AdBlue®
- If small quantities of AdBlue® come into contact with the vehicle's paintwork, for example, wipe them off and if necessary rinse the area with water

* Models built on a Fiat chassis will not feature SCR using AdBlue®, utilising NOX Trap technology instead

PROFESSIONAL

Fiat Comfort-matic Gearbox

Automatic Comfort

Optional Fiat Ducato 130/150bhp Comfort-Matic Gearbox on all Auto-Sleeper 2018 Peugeot Models Comfort-Matic, the gearbox that ensures an easy, fuel-efficient drive and respects the environment. The robotic gearbox works for you, offering the strength and precision of a manual gearbox, with the comfort and ease of an automatic gearbox. The Comfort-Matic also comes with a number of special features designed specifically for motorhomes. With the Comfort-matic installed all that is left to do is enjoy!

Please note: Colour co-ordinated door handles not available on Fiat Chassis Models

Media Pack >

Home Entertainment On The Move

Press and go, the convenience of having all your TV channels ready to watch in an instant with the Auto-Sleepers' Media Pack. The pack features the Maxview VuQube II Automatic Satellite System, a versatile portable or roof mountable satellite system providing you with TV and radio coverage throughout the UK and Europe.

Fully automatic

Includes a compact and easy to use LED control box, powered by your receiver, to automatically locate the correct satellite with a single button-press. Complete with operation manual, set up guide and 2 year warranty.

Key Features:

- Dynamic dish levelling allows the system to be placed on uneven surfaces.
- Twin LNB as Standard. For use with PVR's, SKY+™ or 2 receivers in different locations
- Fully Automatic: Includes a compact control box to automatically locate the correct satellite with a single button-press
- Clear and easy to use LED control box
- Powered by your receiver
- Ultra-lightweight with ergonomically designed carry-handle
- A 50cm offset dish giving this satellite an increased range
- Includes a built in security loop to enable it to be attached to your vehicle or imovable object for safekeeping
- All weather resistant and robust casing
- Includes 2 x 10M of cable allowing easy positioning
- Complete with operation manual & set up guide
- Receives transmissions from Astra 1, Astra 2, Astra 3 and Hotbird
- Compatible with any SD/HD Free to air satellite receivers

Media Pack+ >

Enhanced Reception Performance

The Auto-Sleepers Media Pack+ Upgrade features the Maxview Target Satellite System for increased performance and coverage. The system includes five pre-programmed satellites as standard (ASTRA 1, 2, 3, Hot bird & Thor) with an easy-to-use, wired control box and an 'Easy adjust' manual skew system. A low, stream-lined profile means that the fully-automatic satellite system is 17cm high in the parked position and it has an all-weather-resistant construction.

Future proof design

Periodically all automatic satellite systems may require an update to enable them to lock on to the selected signal. Maxview have designed the Target with this in mind making it easy for you to update. Simply load new software onto a USB stick and insert into the control box. Your system is then upgraded to locate and lock onto the new satellite settings.

Key Features:

- Performance and coverage better than any Dome Satellite System
- Single, Twin and Quad LNB variants available (For PVR's, SKY+ or 2 receivers)
- Enhanced gearbox design for increased positional accuracy and reliability
- Mounting brackets included to fix Control Box conveniently inside a cupboard
- Easy adjust manual skew system
- Designed and tested for outdoor use
- High quality, durable and robust construction
- Designed and manufactured in the UK
- 3 year guarantee
- Complete with operation manual & set up guide
- Receives transmissions from Astra 1, Astra 2, Astra 3 and Hotbird
- Compatible with any SD/HD Free to air satellite receivers

Media Pack^{DX} >

Cutting-edge technology in a compact design for incredible reception range

The Auto-Sleepers Media Pack^{DX} Upgrade features Oyster's New Cytrac^{DX}® Satellite System. The innovative antenna technology that facilitates the enormous reception range forms the heart of the Cytrac^{DX}® system. It comprises 1016 interlinked single antennas arranged in a honeycomb pattern. This results in a reception range that is several hundred kilometres larger than that of an equally-sized flat-dish antenna.

The light-weight Cytrac^{DX}® system is only 14 cm high. Thanks to its compact design, it fits onto almost any vehicle roof. Its robust exterior unit is made of cast aluminium and requires only little space as it rotates in open position only. The system is mechanically reinforced to resist even strong gusts of wind. Its surfaces are made of highly weather-resistant PC-ASA plastic to shed off hail without taking any damage. A hail cover is therefore obsolete.

Operating the Cytrac^{DX}® system is easy and intuitive as it automatically aims itself at the selected satellite.

Key Features:

- Small, compact antenna for space-saving installation on the vehicle roof
- Fully automated satellite searching and aiming in 30 to 60 seconds
- LEM technology for reduced search times (system stores last elevation angle)
- Automatic retraction at vehicle start
- High-quality craftsmanship and durable materials
- Solid, reliable design using PC-ASA plastic that even resists hail

Partner for Paint and
Upholstery Protection

Paint Protection

Upholstery and Carpet Protection

The only
one with the
Lifetime
Guarantee

From the Makers of Diamondbrite. **Diamondbrite Leisure.** *The ultimate Paint and Upholstery Protection for your Auto-Sleepers motorhome*

Diamondbrite Leisure is a two-step protection system for your Auto-Sleepers motorhome with a Lifetime Guarantee*

1. EXTERIOR

- Nano-Ceramic Technology
- Fade Resistant
- Never Polish Again!

2. INTERIOR

- Easy to Clean
- Stain Resistant
- Lifetime Guarantee

HOW DOES IT WORK?

1 If your paintwork was magnified it would reveal small pores in the surface.

2 Road traffic dirt gathers in the pores and attacks paintwork.

3 Your first Paint Protection application cleanses and fills pores in the vehicles paintwork leaving a smooth finish that cannot be penetrated.

4 Your second application bonds with the first to create a hard protective skin. It leaves a high lustre finish that rain and dirt cannot penetrate.

You will also receive a complimentary After Care pack including the fabulous Waterless Wash, plus a range of other professional cleaning products.

Jewelultra Ltd. Diamondbrite House, Ewell Lane,
West Farleigh, MAIDSTONE. ME15 ONG.

- Navigate complex interchanges with "spoken turn-by-turn" directions and active lane guidance
- TripAdvisor Travel POIs with ratings
- BC™ 30 Wireless Backup Camera (fitting included)

SPECIFICATION & AFTER-SALES

More Comfort On Tour

Aventa Air Conditioning System

Peugeot van conversions, coachbuilts and Mercedes coachbuilts all have the option of having an Aventa Eco Air Conditioning system installed. The Truma roof air conditioner excels with its performance power – Although being especially efficient and economical in consumption the Aventa turns the vehicles into a feel good zone thanks to its high performance. The powerful cooling capacity ensures this on hot summer days. In cool nights the economical heat pump function (2 ventilation steps) for pleasant temperatures. At the same time the air is not only dehumidified, but also cleaned by a new honeycombed air filter.

The integrated sleep-mode reduces speed of the ventilator in the night and so by very silent air distribution a particular smooth running of the air conditioner is achieved. The single adjustable air-outlets offer various possibilities to dispense the conditioned air in the vehicle.

Truma iNet System

More comfort on the move in a new dimension: The Truma iNet System enables the Combi heater and Truma air conditioning systems to be remotely controlled anywhere and anytime; be it on the ski slopes, at the beach or when hiking. The Truma iNet System allows you to control the units easily and simply via the Truma app from wherever you are, and to query the current device and vehicle status. This makes camping much more easy, comfortable and safe.

Truma Combi CP plus

Just set your own comfort zone with the Combi CP plus boiler from Truma. The Combi CP provides heating and hot water boiler in one device and the practical turn-and-push controls of the digital control panel make operation of the system really easy.

You can intuitively select the required room or water temperature, and the Boost function offered by the CP plus adds real value: it warms the water even faster, and heats the leisure vehicle to a pleasant temperature – at the push of a button.

This digital high performer even lets you determine the energy source, adjust the fan, or programme the functions of your Combi heater or air conditioning unit by times.

Safe Heating On The Move

Drive Safe Regulator

For 2018 all Auto-Sleeper models feature an innovative gas pressure regulator from Truma. It offers its users a safe and convenient supply of gas when on the move. With an integrated gas flow monitor, you can use your liquid gas heater whilst driving.

How safe is it to operate a gas system for heating while you are on the move? Truma has the answer: for years, we have been further developing technical standards for protective devices that enable heating whilst driving; and now we have also incorporated a crash sensor into our new generation of gas pressure regulation systems.

This sensor even responds to accidents that take place at low impact speeds of 15–20 km/h, closing the gas supply before damage can be caused to the lines or devices.

So you can arrive at your destination with everyone feeling relaxed, reassured, and safe. Truma gas pressure regulation systems offer everything required to ensure safe heating on the move, throughout the whole of Europe.

For further information on Truma products please visit:

Service >

Auto-Sleepers Aftercare & Service Centre

The Auto-Sleepers Service Centre caters specifically for the needs of the motorhome and caravan owner. Located on site at the Auto-Sleepers factory in Willersey, Worcestershire, we offer mechanical and conversion servicing, accident and insurance repairs, annual habitation checks, MOT testing, accessory fittings, modifications and refurbishments.

The Service centre has also been granted Approved Workshop status by the NCC. The Approved Workshop Scheme is a joint enterprise between the NCC (National Caravan Council), The Caravan Club and The Camping and Caravanning Club. It is the benchmark for motorhome and touring caravan servicing. To comply with the Scheme's rigorous standards Auto-Sleeper have invested heavily in training and additional equipment, along with a purpose designed computer system.

Warranty >

Auto-Sleepers Conversion Warranty

You can be confident about owning an Auto-Sleepers, because we are confident about the way in which we build them. The conversion work of every Auto-Sleepers is covered by our own three year warranty* scheme plus and an additional three year water ingress warranty*. The cover is not restricted to mileage and protects all aspects of the conversion. Terms and conditions apply, please refer to your handbook for further information.

Mercedes-Benz Warranty

The base of your motorhome is covered by Mercedes-Benz. You are covered by a 3 year, unlimited mileage warranty (terms and conditions apply, please refer to the chassis manufacturers handbook for details).

Mobilovan UK

Mobilovan UK keeps the Mercedes-Benz Van Owner On The Road For Thirty Years - Mercedes vans first registered after 1st October 2012. To benefit from Mobilovan UK, the owner must have the van regularly serviced by a Mercedes-Benz service partner. Even if it is a used van or a service has been missed, with each new service the van is automatically entitled to Mobilovan UK cover again, for up to 30 years.

Mobilovan UK also offers special mobility services in the event of a workshop visit arising from a warranty claim or goodwill gesture during the first three years after the van was initially registered.

Europe-Wide

Mobilovan UK cover applies throughout Europe even in a remote lane in Spain. Wherever there is a road, Mobilovan UK cover applies. A Europe-wide network of approximately 3,000 authorised Mercedes-Benz service partners makes this possible. And should it take a little longer to repair the vehicle, the owner can keep on the move thanks to the wide-ranging Mobilovan UK mobility services.

Technical Breakdowns Or Starting Problems

For three years after the initial registration of a Mercedes van, Mobilovan

UK will keep it on the move in the event of a technical breakdown or starting problems. Subsequently the mobility guarantee is extended after each service by an authorised Mercedes-Benz service partner – up to maximum of 30 years.

Minor Mishaps Or Driver Error

For three years after the initial registration of a Mercedes-Benz van Mobilovan UK will cover the following:

- Wrong fuel or out of fuel
- Lost or locked keys
- Two or more flat tyres
- Road traffic accident
- Vandalism and attempted theft

Workshop Visits For Warranty Repairs Of Over Two Hours

In the case of warranty claims or goodwill gestures in the 3 years following first registration of a Mercedes van the owner will be entitled to Mobilovan UK mobility services if the repair work exceeds 2 hours.

*Effective from 1st October 2017

Peugeot Warranty

All motorhomes first registered in the UK and purchased from a UK Peugeot Approved Manufacturer benefit from a Peugeot 3 Year unlimited mileage warranty and an 3 year paint guarantee provided by the Peugeot Dealer Network in the UK.

This additional warranty carries a mileage limit of 100,000 miles from first registration and is dependent upon the manufacturer's recommended servicing being carried out at the specified time or distance intervals. For full terms and conditions, please consult your Peugeot Dealer in the UK.

All new Peugeot motorhomes come with 12 months' Peugeot Assistance - breakdown assistance service. Peugeot Assistance includes European cover, homestart, roadside assistance, vehicle recovery and a free replacement car or hotel accommodation if required. For this service call 0800 294 0294

Fiat Warranty

Fiat provides a manufacturer's warranty for the base vehicle (as supplied to Auto-Sleepers) for a period of two years. For any issues with the base vehicle please contact your local Fiat dealer.

Your base vehicle warranty is subject to the terms and conditions contained in the respective chassis manufacturers' service literature. Your vehicle must be serviced in accordance with the chassis manufacturer's requirements.

The MRO is the mass of the unladen vehicle, including an allowance for the driver (assumed 75 kg) and a 90% full fuel tank. The MRO is calculated with the fresh water tank empty.

If you travel with water in the freshwater tank then the User Payload will reduce accordingly.

The optional Comfort-Matic gearbox on the Fiat chassis will increase the MRO by 50 kg and therefore reducing the user payload by the same amount.

This brochure does not constitute an offer by the Auto-Sleepers Group Ltd (Auto-Sleepers). It's the continual policy of Peugeot, Mercedes-Benz, Fiat and Auto-Sleepers to seek to improve their vehicles in every way and so whilst every effort has been made to ensure the details set out in this brochure were correct at the time of going to press, they are unable to guarantee that no changes in specification have subsequently taken place. They therefore reserve the right to alter the specifications and price at any time without notice. Auto-Sleepers designs its Motorhomes to provide a variety of potential uses for its customers. Each vehicle features the optimum storage, fluid, seating and sleeping capabilities. While the customer enjoys this potential, they have the responsibility to select the proper combinations of loads without exceeding the chassis weight capacities. Bedding and "dress" items shown in photography are used for illustrative purposes only and are not part of the vehicle specification. The End Of Life Vehicle Directive for Peugeot - visit www.peugeot.co.uk under the Environment section. For more details on Mercedes - visit www2.mercedes-benz.co.uk, and for Fiat - visit <http://www.fiatprofessional.co.uk/services/assistance/end-of-life-vehicle-collection>. Please note that imperial conversions have been rounded to the nearest inch. Dimensions are based on vehicles with standard wheels. All weights and dimensions are subject to manufacturing tolerances and refer to standard specification models and do not include any options. Effective 1st October 2017. This literature supersedes all others. E&OE
