

The background of the page is a dark, almost black, space filled with vibrant, glowing light trails. On the left side, there are several bright blue trails that curve and flow across the frame. On the right side, there are several bright pink trails that also curve and flow. In the center, a bright white light source creates a soft, circular glow. A dark red, curved line, similar to the one in the McLOUIS logo, arches over the word 'Fusion' in the main title.

The masses indicated in this catalogue refer to the provisions of European Directive 2007/46/EC.

MASS IN RUNNING ORDER

It includes the weight of the empty BASE vehicle, of the driver (75 kg), 100% of the fuel (60L tank), fresh water (tank filled with 20L while travelling), and a gas tank for living purposes (20 kg). The mass in running order, and consequently the payload and/or certified seats may vary depending on the accessories installed.

PAYLOAD

This consists of the difference between the maximum technically permissible laden mass and the mass in running order. It includes elements for living purposes, the transported passengers defined by the manufacturer (driver excluded), and the personal effects. The payload calculation is based on the following parameters: 75 kg for each passenger (driver excluded), 10 kg of baggage for each passenger and for the driver, 10 kg for each metre of length of the vehicle, plus the remaining payload, which can be used for the installation of accessories or for additional baggage. All masses and loads of the empty vehicle have a tolerance of +/- 5%, in compliance with Directive 2007/46/EC. Any optional equipment increases the mass in running order and decreases the payload. The weight of non-standard accessories is not included in the mass in running order indicated in this catalogue.

Additional accessories and devices reduce the payload by a quantity equal to their weight; the incidence of the weight of the individual accessories is shown in the special column in the technical data sheets or can be requested at our dealers. In case certain accessories are installed (for example, additional elements such as coupling device or motorbike rack), the mass of these accessories will affect the payload, possibly reducing it along with the number of certified seats. Please make sure that the maximum loads on the axles and the maximum technically permissible load mass are not exceeded during the complete loading phase of the vehicle. The regulations and requirements of each country may entail changes in the characteristics of this table. The number of certified seats may vary depending on the traffic regulations in force in each country.

NOTES

SEA S.P.A. - McLouis reserves itself the right to change the characteristics and the furnishings of all its models with no advance notice required; all data contained in this leaflet must therefore be considered approximate and non-binding. Despite thorough checks of the contents, we cannot exclude possible printing and/or translating errors. This catalogue does not constitute contractual documentation. Any reproduction, including in part, of the text or of the content of this document is prohibited. The indicated weights are exclusively approximated. Tolerances of +/- 5 % are allowed. Generally speaking, special equipment and options increase the no-load weight and entail a reduction in the payload. We hereby decline any and all responsibility in case structural changes are made to the vehicle; any assembly, disassembly or changes carried out by unauthorised workshops may jeopardise your safety and cause the warranty clauses to be forfeited. For additional information on installation and technical details, please contact one of our dealers.

GARAGE WEIGHT CAPACITY UP TO 300 KG

The load for the rear storage has a maximum limit of 300 kg, uniformly distributed, in respect of the distribution of the maximum permissible loads on the front / rear axles.

Fibreglass Roof
33mm thick, step-on, anti-hail-bearing structure

Living Space Door
Habitation door with window, bin and blind

120W Solar Panel
Fitted solar panel provides additional power allowing greater outdoor freedom

Sky Dome Window
Opening skydome with blind

Wide Garage Doors
Internal garage height up to 1470 mm (model specific)

Lowered Garage Doors
for more comfortable loading (model specific)

Colour Bumper
Front bumper in white and integrated daylights

Entrance Door
Pleated sliding mosquito net on entrance door. External LED light over the entrance door

Seitz Windows

Fibreglass Underbody
Maximum resistance against water and atmospheric agents.

Garage with 300kg weight limit and LED Lighting

Specification

COMBINING COMPACT PRACTICALITY WITH FIXED BED LUXURY

Innovative Construction Technology

All Fusion models are constructed using McLouis' innovative WPS construction system, a durable wood-free wall manufacturing process which uses high quality insulation materials. The innovative iTech 4.0 wall system uses synthetic resin that replaces wood as a support material. This increases the durability of the wall and there will be a lower empty weight. Both the inner and outer wall are made of polyester. The polyester outer wall makes the mobile home hail resistant. The polyester inner wall replaces the wooden triplex interior wall that other brands use. Polyester that is mechanically stronger than wood is resistant to dents. Moreover, polyester is water-resistant; it is therefore not affected by a leak or incident rain. The Styrofoam insulation between the walls ensures a high insulation value and makes the sandwich panel extra strong. The bottom insulation at McLouis is 7cm thick and therefore excellent in winter.

What is WPS?

- 01 Total absence of wood
- 02 Total waterproofing and higher heat insulation
- 03 Highest torsion resistance and more stability
- 04 Higher wear resistance and easy maintenance
- 05 Lighter and more resistant structure thanks to the use of bi-composite thermosetting resins

Benefits Of WPS

- ✓ Waterproofing
- ✓ Heat Insulation
- ✓ Stability
- ✓ Easy Maintenance
- ✓ High Mechanical Strength
- ✓ Lighter Walls
- ✓ Better Soundproofing

Side, Rear Walls & Roof

Wood-free supporting frame made of newly designed plastic resins. Fibreglass underbody coupled with non-slip PVC highly resistant to abrasion. Lighter structure and higher mechanical strength than the traditional wooden panels. Elimination of thermal bridges generated by the wood with higher heat insulation. Easy maintenance. Frame assembly with sound-absorbing materials for a better soundproofing.

The Floor Structure

Wood-free supporting frame. Exclusive design profiles with high strength thermosetting resin composites. Exterior and interior fibreglass coating. Waterproofing, elimination of thermal bridges generated by the wood. Structure made of extruded materials with higher heat insulation. Industrial type assembly to ensure high quality standards.

Base Vehicle Specification

- 3650kg MTPLM chassis as standard
- Optional 3500kg downgrade
- FIAT Ducato Multijet 130bhp 2.3 35L engine
- ESP, ABS with Traction+ as standard
- 16" Alloy wheels and composite suspensions
- 5th Homologated seat in running order (model specific)
- Daytime running lights
- Cruise control
- Cab air conditioning
- Integrated DAB radio with Bluetooth® connectivity & steering wheel controls
- Single key central locking for cabin body
- Driver and passenger airbags
- Integrated daylight headlights
- Winter pack including Grey water tank insulation and exhaust valve with antifreezing resistor

Exterior General

- Large opening 'skydome' window with blind and flyscreen
- Sunroof over kitchen and rear bed
- 120W Solar Panel and regulator
- 33mm thick roof with an anti-hail structure
- Roof constructed for water downflow
- External garage up to 1470mm in height with lighting
- Rear garage up to 300kg load capacity
- Lowered garage doors for a more comfortable loading
- White front bumper
- Fibreglass underbody to maximise resistance against water and atmospheric agents

Interior General

- TV arms
- King size central bed with a width of 1600mm (367 and 379)
- Front Electric drop-down beds (model specific)
- Beds with Orthoedic staves on drop down and rear beds (model specific)
- Beds with manual adjustment and reclining headboards (model specific)
- Entrance door with pleated sliding mosquito net, window and dustbin
- Two locking points on habitation door
- LED light over entrance door
- UK Sockets
- Smoke detector sensor
- Seitz windows
- 'Memory foam' comfort made of slow springback on all seating
- Carbon Monoxide sensor
- Cab seat covers
- Step storage areas (model specific)
- Cab swivel seats
- Ornamental LED habitation lights

Electrics + Plumbing

- Truma CP Plus with LCD control panel
- Combi 6E Heating system with air ventilation
- 115 Litre Fresh Water tank (100 litres on 360)
- Waste tank 100 litres (135 on 373 and 379)

Kitchen

- Oven, grill and 3 point hob with glass cover (excl 331 and 360)
- Three-way 150 litre refrigerator (142 litres on 331 and 360)
- Transparent rooflight above Kitchen
- Storage cupboards
- Removeable rack under the kitchen
- Extractor hood
- Dinette shoulder with thickness 24mm
- Slide-out spice basket (model specific)

Bathroom

- Separate shower and toilet compartment (367, 373 and 379 only)
- Combined shower and toilet compartment (331 and 360 only)
- Vanity cupboard and mirrors
- Electric flush toilet
- Storage cupboard
- LED lighting
- Seitz window

This brochure is for guidance purposes only. Please be sure to check our full current and technical specifications with your retailer before placing your order. This brochure does not constitute an offer by McLouis or Auto-Sleeper. It's the continual policy of Fiat and McLouis to seek to improve their vehicles in every way and so whilst every effort has been made to ensure the details set out in this brochure were correct at the time of going to press, they are unable to accept responsibility for discrepancies between these and subsequent models shown. McLouis reserve the right to alter the specifications and price at any time without prior notice. McLouis design its Motorhomes to provide a variety of potential uses for its customers. Each vehicle features the optimum storage, fluid, seating and sleeping capabilities. While the customer enjoys this potential, they have the responsibility to select the proper combinations of loads without exceeding the chassis weight capacities. Bedding and "dress" items shown in photography are used for illustrative purposes only and are not part of the vehicle specification. The End Of Life Vehicle Directive for Fiat - please visit www.fiatprofessional.co.uk/services/assistance/end-of-life-vehicle-collection. Please note that imperial conversions have been rounded to the nearest inch. Dimensions are based on vehicles with standard wheels. All weights and dimensions are subject to manufacturing tolerances and refer to standard specification models and do not include any options. Effective 1st October 2018. This literature supersedes all others. **VI.**
